In a capital constrained market, with very poor commercial real estate leasing absorption, the commercial real estate landscape in 2009 and 2010 are being dominated by opportunities and challenges associated with debt. Our panelists represent a group of national experts with experience in the CMBS market, the FDIC REO market, the REIT market, and workout/receivership market. Don't miss this opportunity to learn more about the market behind the commercial real estate finance market.
